

URBAN *planters*®
for a greener world

Plant Productions

We offer a wide range of sub-tropical and tropical plants for indoor use.

Our plants are either directly produced in nurseries in the Netherlands or sourced from further afield and then imported to the Dutch nurseries to acclimatise to our northern hemisphere light levels.

All our plants are sustainably sourced and our entire supply line is regulated and certified.

This brochure is designed to give you a general feel for what we can offer, showing our most popular species of plants. Please note that most of our plants can be sourced in various sizes and grown in various forms.

If you have any specific requirements, please ask and we will try to make it possible.

Artcode: 4AGFRBU15
 Description: Aglaonema freedman
 Form: Tuft
 Pot: 35
 Height: 80

Artcode: 4AGSBBU20
