OPTERGO CANTILEVER

A simply perfect accompaniment to any boardroom, meeting or conference area, the **OPTERGO CANTILEVER** armchair is a stylish option that begs to be sat in.

Uncomfortable workplace sessions sat in sub-standard seating options need no longer be an issue if you specify this chair. The beautiful contoured seat and back engulf the user and provide a level of comfort that's second to none.

Available with either a chrome or black cantilever frame.

OPTERGOTASK

The multi-functional OPTERGOTASK chair ticks many a box when proposing an option to clients to suit the contemporary office space.

The sleek curvature found in the cool mesh backrest, assisted by the adjustable lumbar support, provide an offering that assists with allowing the user to maintain the correct posture whilst working.

The OPTERGOTASK can be specified with either the optional chrome stiletto or black alloy spider bases if the standard black stiletto doesn't fit your project brief.

OPTERGOTASK OPERATING INSTRUCTIONS

1 Slide the **adjustable lumbar support** up and down to achieve the desired position to fully support your lower back area

2 Push the **armrest button** on the outer side of each armrest and either pull up or push down on the pad to achieve your desired armrest height

3 **Slide or twist** the adjustable arm pad to achieve your desired position. The pad will slide forward and back and twist 45° inward or outward

4 Lift the **front RIGHT paddle** to operate the gas lift. This will increase the chair height. Lifting while seated will lower chair height

5 **Turn to increase or decrease** the resistance of the chair's synchronised movement.

6 Pull to activate the **seat slide** and manoeuvre the seat into desired position. Release to lock in place.

7 Lift the **front LEFT paddle** to operate the locking tilt control. There are 7 positions to choose from when adjusting the chair to your desired position
