Making the Workplace a better place to be

The way we work is drastically changing. Gone are the days of sitting at a desk for 8 hours a day – the modern workplace is embracing an 'agile' approach to work. A culture of a shared workspace has evolved with a thirst for communication and collaboration. So, whether you want to have a quick chat with a colleague, a working session with the whole team

or just need somewhere to work on a project of your own, it's vital that your space can adapt to your needs. Activity based working is not a one-size-fits-all approach, Verco is able to develop products using our experience and expertise to enable and encourage the best possible work across a variety of tasks.

Meet the Martin family_

Designed by Studio Verco

Martin was born from the current thinking around the modern, connected workplace and was designed to be a responsive, comprehensive family of work tables. While effortlessly complimenting a variety of aesthetics, work styles and environments, Martin improves effectiveness, efficiency and productivity.

The beautifully simple but extensive Martin range offers a solution to any collaborative working requirement. From work tables with an economic foot print, to boardroom tables that exude modern sophistication, quality and style. The Martin collection will bring your workplace to life.

Martin's ways of working

Sarah (homemade salad), Becky (soup), John (pizza – he's hungover, don't judge him) and Liz (leftovers, looks like spag bol) join Martin for an important lunch meeting.

12:27
Lunch

Brian hops over to the opposite side of Martin to write a report in record time.

15:07
The report pt.2

Meeting with the Execs
17:20
Bit late. Blame it on the lift. Sit at the end of a large Martin meeting table wondering if the handshakes went well or not.

08:45
Breakfast with Martin

Brian (Cappuccino) grabs a seat and checks his emails. Sarah (two rounds of toast) joins him for a catch up before her meeting.

09:55
Meeting prep

Brian and Sarah have an important meeting later this morning. David joins them to share his ideas.

11:23
Meeting

The rest of the team join Brian, Sarah and John for their 11:30. Martin's complementary stools and benches accommodate them perfectly.

14:03
Late Lunch

The team are on a roll and continue their meeting through lunch. Brian volunteers to do the sandwich run.

14:03
The report pt. 1

Sophie pops by to ask Brian for the report he promised her by the end of the day. He nods with his best poker face.

Martin Work Tables

Offering a softer, more comfortable office environment, the Martin Work Tables maximises capacity requirements with a reduced footprint and a lighter form of cable management system to accommodate growing and changing teams.

Structurally lean, Martin can easily span the longest lengths with minimal support, providing a clean, finished look. And, thanks to the simplicity of installation, Martin effortlessly adapts to the ever-changing landscape of the modern office to enable and encourage the exchange of ideas, information flow and the concept of team working.

Martin_
Drop in_
Work alone_
Work together_
Work your way.

The beauty of Martin is the opportunity it presents for effortless collaboration and communication while also offering the flexibility to accommodate the need for quieter, individual working.

A solid wood chamfered edge subtly defines individual space and central cable access covers allow for technology to be quickly fed through the furniture with ease, allowing instant access.

Martin Meeting Tables_

Martin's more formal meeting tables are available as circular or barrel shaped, allowing you to suite the furniture throughout an entire workplace. Larger tables lend themselves naturally to boardroom environments while smaller, more intimate options are available to create the perfect breakout space.

Martin Quality that unites Made in Britain.

Martin Tables use solid timber legs in combination with the warmth of real wood veneers, the modernity of laminates and the strength and durability of steel to create a sophisticated and subtle fusion to help define a corporate personality and character.

Martin Desk_

Martin can compliment a tranquil managerial environment or a busy office space as a single workstation or in a team application. Martin Desking effortlessly suits a range of workspaces and embraces the changes faced by organisation every day. Its uncomplicated, honest design naturally lends itself to the task at hand. With the overall aim of a minimalist aesthetic, Martin is highly versatile and offers the flexibility to respond to the way we want to work today; answering the increasing demand for collaborative work practices. Available in a range of veneers and laminates with complementing modesty panels

Martin Credenza_

Martin Credenzas offer exceptional design freedom and simple storage. Chamfered finger-pulls offer discreet satisfaction upon opening the door, whilst the collective design details provide an effortless aesthetic that complements the entire collection.

- _ Solid wood edge profile
- _ Shadow gap
- _ Adjustable feet
- _ Tapered chamfer finger-pull on doors
- _ Matched veneering Panels
- _ Full length camber-chamfered edge detail

Martin

Simple clarity, beautifully realised_

Martin's clean and elegantly simple design reflects our intention; to help people work together, collaborate, share and increase productivity with total ease.

Although the option of screens and technology have been considered, and are available, the main focus has been the collaborative experience people expect from Martin. Reduced depth provides a smaller footprint, bringing people closer together. As modern technology has developed it has far fewer demands on furniture, perhaps just the occasional top up of power.

Martin Design Detail_

- _ Solid oak and walnut leg
- _ Solid oak and walnut edge profiles with a camber chamfer
- _ Oak and walnut veneers – standard laminate or ultra-matt laminate work surfaces
- _ Complementary stool options

Vercos Policies

Quality

Vercos manufacture in High Wycombe, Buckinghamshire, a traditional home of furniture manufacturing in the South East of England. With over 50,000 square meters of production space and by using high quality components, the latest technology in manufacturing processes, allied to the skills and craftsmanship of our dedicated workforce, we have established ourselves as a major manufacturer of both seating and furniture solutions.

We design and manufacture aesthetically pleasing, high quality, inspirational seating and furniture solutions for the modern workspace; wherever that may be. Our current portfolio represents the culmination of over 100 years of experience within the furniture market.

VERCO Office Furniture manufacture under the stringent ISO BS EN 9001:2008 Quality Assurance standard. Products are continually tested to ensure they conform to the strength and stability requirements of British and European performance standards, enabling us to have confidence to give every piece of furniture and seating a full five year guarantee.

Environmental Impact

We are committed to continually improving the environmental impact of our activities, products and services and to continually improving our environmental performance. Indeed improving our environmental performance is a belief that we have held since our inception in 1912. We've worked to introduce environmental improvements throughout our manufacturing process and wherever possible reduce the environmental impact of all our operations, enabling us to secure accreditation to the Environmental Management System BS EN ISO 14001:2004.

We recognise that time taken at the design stage of any new product can have an immediate and fundamental effect on that product's environmental impact. From the careful selection of materials to maximise the recycled content and to minimise both the energy and CO2 footprints, to the end of life recyclability of the component parts, particular consideration has been given to the environmental impact at every stage.

Vercos continues to minimise any impact on the environment through our 'reducing, reusing and recycling' code.

Accreditations

All products are manufactured under the stringent BS EN ISO 9001:2008 quality assurance standard and the environmental management system BS EN ISO 14001:2004.

Vercos seating has been designed to conform to:

BS 4875	strength and stability standards
BS 5459 – part 2	strength and stability standards
BS EN ISO 1335 – 1	dimensions standards
BS EN 15373	strength and stability standards
BS EN ISO 9241 – 5	ergonomics standards

Vercos furniture has been designed to conform to:

BS EN 527 – 1:2000	dimensions
BS EN 527 – 1:2000	mechanical safety requirements
BS EN 527 – 1:2000	strength and stability standards
BS 4875	strength and stability standards
BS 5459 – part 2	strength and stability standards
BS EN ISO 9241 – 5	ergonomics standards
BS 6396:2008	electrical systems in office furniture
